SUMMARY

I am a Full-stack web developer with an attraction to problem solving and overcoming challenges. I bring to the table such skills as flexibility, perseverance, the ability to break down complex ideas and explain them in more basic terms, experience with detailed planning and adapting to new conditions as needed, strong written and oral communication skills, and the patience to work with upset clients in a professional, calm, and effective manner.

SKILLS

HTML, CSS, JavaScript, JQuery, Node.js, Nodemon, Express, MySQL, Sequelize, MongoDB, and Mongoose
Familiar with the use of web based grading programs, Google Apps, Zoom, and Google Meet

EDUCATION & CERTIFICATIONS

- **Anticipated - Mar. 30: Full-Stack Web Development Certificate:** UNH Coding Bootcamp, Durham, NH
- **Master of Arts in Teaching Secondary English:** University of New Hampshire Graduate School, Durham, NH
- **Bachelor of Arts in English Literature:** University of New Hampshire, Durham, NH

PROJECTS

Dev Fit Gym Logistical Tracker App - Gym Management Application for Client, Trainer, and Manager use

- Built the front end using HTML, CSS, and JavaScript and worked closely with back-end team to make sure UI worked smoothly with MySQL database through API calls & Sequelize.
- <https://github.com/smanter82/Gym-Logistical-Tracker> | <https://gym-logistical-tracker-duex.herokuapp.com/>

Hiker Helper - Hiking app with an anticipated audience of novice hikers in New Hampshire during COVID pandemic

- Worked with JavaScript to pull data from third-party API's such as hikingproject.com
- <https://github.com/smanter82/HikerHelper> | <https://smanter82.github.io/HikerHelper/>

Weather Dashboard - Application used to check weather in various locations to aid in a smooth travel experience

- Used HTML, CSS, & JavaScript & pulled data from third-party API to populate today's weather and 5-day forecast.
